# creative cables

THE CREATIVE MANIFESTO

ca creative cables

1. We don't sell lamps: we create them with you

We think every lamp should be unique: a true reflection of the taste and creativity of those who buy them and enjoy them in their everyday setting.

2. Our goal is to bring light wherever you want

We come up with design systems that allow you to arrange your light, moving it where you most need it.

3. Assembled or divided

Here you can find all the components you need to create your own lamp (don't worry, we have plenty of tips to help guide you through it!) or to customize an already assembled lamp with many different finishings (and in this case all you'll need to do is switch it on!)

4. Born digital but we prefer face-to-face

We were born on the web and, contrary to what usually happens, we subsequently opened our stores across the world: we couldn't wait to meet our Clients in person and share a unique and special bond with them!

5. We are people of the world but we love our territory

We have online and physical stores in more than 25 countries, but we also love our origins and their artisanal traditions. This is why we entrust expert italian artisans with the production of our fabrics, ceramics and wood components.

6. We love people that work with light

This is why we created exclusive services for architects, electricians, interior designers and other professionals.

7. Sturdy and Sustainable

To us sustainability means durability in time. That's why you will be able to exchange every part of your lamp by substituting them when necessary.

8. In case you couldn't tell, we're Italian

Even if we picked out an english name we are still italian and proud, and we're hoping some elements of our origins shine through.

9. We believe in Quality and accessible design

For a reasonable and accessible price we try to offer beauty and the possibility of having fun by creating dazzling ideas.

10. The content, not the container

We prefer to focus on the content rather than on the container: a simple packaging to highlight our colourful products! Custom is our standard

SUMMARY

SPOSTALUCE

―――――

**No matter the lamp, the layout or the setting...
the right answer is Spostaluce!**

Say goodbye to dark corners with the versatile Spostaluce.

Choosing the placement for ceiling and wall lamps can be a daunting task, and you may feel constrained by your existing sockets or light sources. That's where Spostaluce comes in, allowing you to effortlessly transform the lighting in your home. It's not only easy but also enjoyable, thanks to a wide selection of elegant and fun-colored textile cables.

All you need to do is connect the Spostaluce lamp plug to the nearest electrical socket and attach the lamp to your room's wall or ceiling. It couldn't be simpler!

EASY INSTALLATION

Save yourself the trouble of tearing down walls and hiring electricians.

FRESH LIGHT

A creative solution for introducing new lighting sources throughout your home.

100% CUSTOMIZABLE

Explore countless color and shape combinations.

Follow this logo inside the catalog and discover all the components you can match

UV RESISTANT

What does UV resistant cable mean?

It means the fabric used to line these cables was designed to resist UV rays, which make up around 10% of sunlight. The colour of UV resistant cables remains vibrant and doesn't tend to fade over time, even when they are consistently exposed to sunlight.

CREATIVE TUBES

———

Create your own personalized, visible wiring installation with **Tubes**.

Tubes are the Creative-Cables system that combines the beauty of the fabric covering with the practicality of a true surface wall system.

The Tubes system eliminates the need for ugly plastic electrical conduits or rigid metal pipework.

Flexible

Creative-Tube combines the fabric-covered sheath with two metal filaments, allowing the conduit to maintain its shape when bent. It adapts to suit your needs.

Tailor-made

Create a beautiful and functional bespoke visible system that takes into account your daily needs and the style of your rooms.

Creative and safe

You have the freedom to exhibit your electrical system. Create a wall design that is a functional light source without sacrificing safety; the system adheres to the highest standards.

creative tubes

CREATIVE-TUBES

Creative-Tube is much more than just a fabric-covered conduit. Thanks to the metal filaments that run throughout it's entire length, Creative-Tube can assume and maintain any shape you give it.

Creative-Tube is sold per meter, multiple orders will be delivered in one piece up to a maximum of 30 meters.

Specifications:

Classification No: **3321**
Crushing Resistance: **>750N on 5cm at 20°C**

PORCELAIN SYSTEM

———

Smooth, dazzling, refined.

Porcelain is the undisputed queen in the field of interior design and decor with its material's unsullied elegance and technical qualities.

So it only felt natural to design a collection of stunning and high quality porcelain components to spruce up your electrical installations whilst avoiding invasive adjustments to your walls.

Compatible with

SPOSTALUCE

PORCELAIN SWITCHES - KNOB

The white porcelain diverter with knob is a vintage component used to control a single light from multiple locations. Made from high quality materials and perfected with an elegant finish, this diverter is ideal for those looking to achieve a vintage atmosphere in their home or office space.

PORCELAIN SWITCHES - BUTTERFLY NUT

The black porcelain switch with butterfly nut is perfect to give that vintage touch to any exposed electrical installations. The butterfly nut is a unique product that really sets the whole system apart whilst giving it a fun retro look.

UV RESISTANT

What does UV resistant cable mean?

It means the fabric used to line these cables was designed to resist UV rays, which make up around 10% of sunlight. The colour of UV resistant cables remains vibrant and doesn't tend to fade over time, even when they are consistently exposed to sunlight.

EIVA COMPONENTS

———

EIVA: the first do-it-yourself IP65 Outdoor lighting system. Water has never been a natural environment for light.

Until today.

Create your own water, rain and storm resistant lamp with guaranteed Creative-Cables quality.

Patented Solution
DESIGN IN ITALY

EIVA
OUTDOOR IP65

EIVA SYSTEM

The heart of EIVA is the world's first wired E27 IP65 lamp holder: thanks to the insulating gel inside and a watertight membrane on the bulb, this lamp holder withstands rain and storms in complete safety.

Sealing membrane
in direct contact
with light **bulb**

Insulting gel

Membrane
gripping the bulb
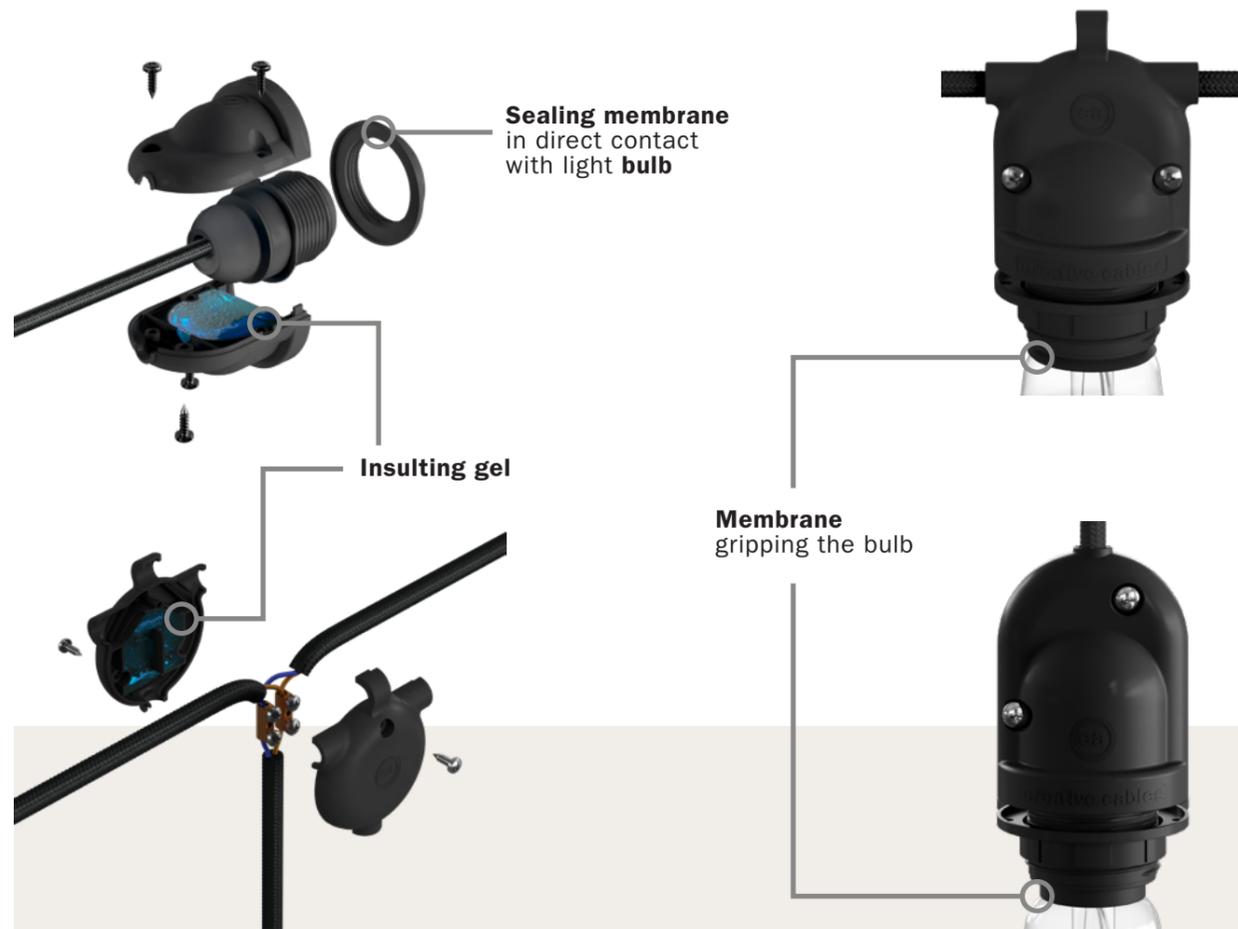

**DESIGNED FOR OUTDOOR,
PERFECT FOR INDOOR.**

The EIVA Outdoor IP65 System will allow you to illuminate outdoor spaces like gardens, patios and terraces but also as lighting solution for the bathroom, without having to worry about water splashes.

EIVA-1

The first outdoor E27 IP65 wirable lamp holder

Made of thermoplastic, this water resistant lamp holder is suitable for both light bulbs and lampshades with E27 connection and can be purchased in its "naked" version or in a kit, complete with a soft touch silicone cover.

Thanks to a special insulating gel contained inside and a hermetically sealing membrane that rests on the bulb, this lamp holder can safely endure rain and storms.

Compatible with:
Cables only 2x1mm^2 H05RN-F
Bulbs A60, ST64, G95 and G125 shapes that guarantee rating of IP65 protection

EIVA-3 T-JOINT

___

Patented solution

EIVA-3 is the T-joint that allows you to design multiple outdoor configurations. By using the existing connections of your installation, you can create pendant lamps with a naked bulb or lampshade, or create a light grid by crossing them. Thanks to the caps included in the kit, EIVA-3 can also be used as a terminal. Using the ring on the top you can attach the joint to any space.
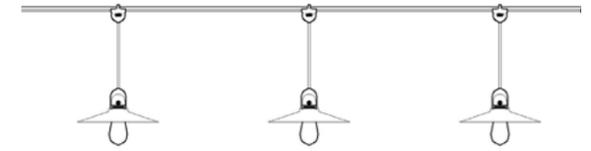

Compatible with:
Cables only 2x1mm² H05RN-F

UV RESISTANT

What does UV resistant cable mean?

It means the fabric used to line these cables was designed to resist UV rays, which make up around 10% of sunlight. The colour of UV resistant cables remains vibrant and doesn't tend to fade over time, even when they are consistently exposed to sunlight.

THE ORIGINAL CREATIVE-CABLES

Some call them colourful textile cables, others fabric covered cables, whilst others still simply call them coloured cables. But really, for over 10 years their real name has been Creative-Cables.

What makes Creative-Cables products so special?

Made in Italy

Fom the industrial process behind the PVC cables to the fine work of tailoring that goes into the textile linings, every single Creative-Cables component is Made in Italy. Including the design, obviously!

Quality

First and foremost! Our cable specifications, fully compliant with the strict HAR and UL regulations, are constantly monitored and consistently kept up to date. The fabric used for the finish comes in one-of-a-kind colour hues from the best Italian suppliers.

Flexibility

Our PVC cable has been produced based on a special formula that maximises flexibility and prevents bulges. The complete cable is Creative-Cables guaranteed from the surface to the core of the product.

Our selection

Which boasts the vastest colour catalogue in the world. Different fabrics, from polyester to linen, cotton to jute, combined with various textures plus exclusive and patented designs. On top of all of this we offer stunning solutions like the Marlene line, soft and light like a feather.
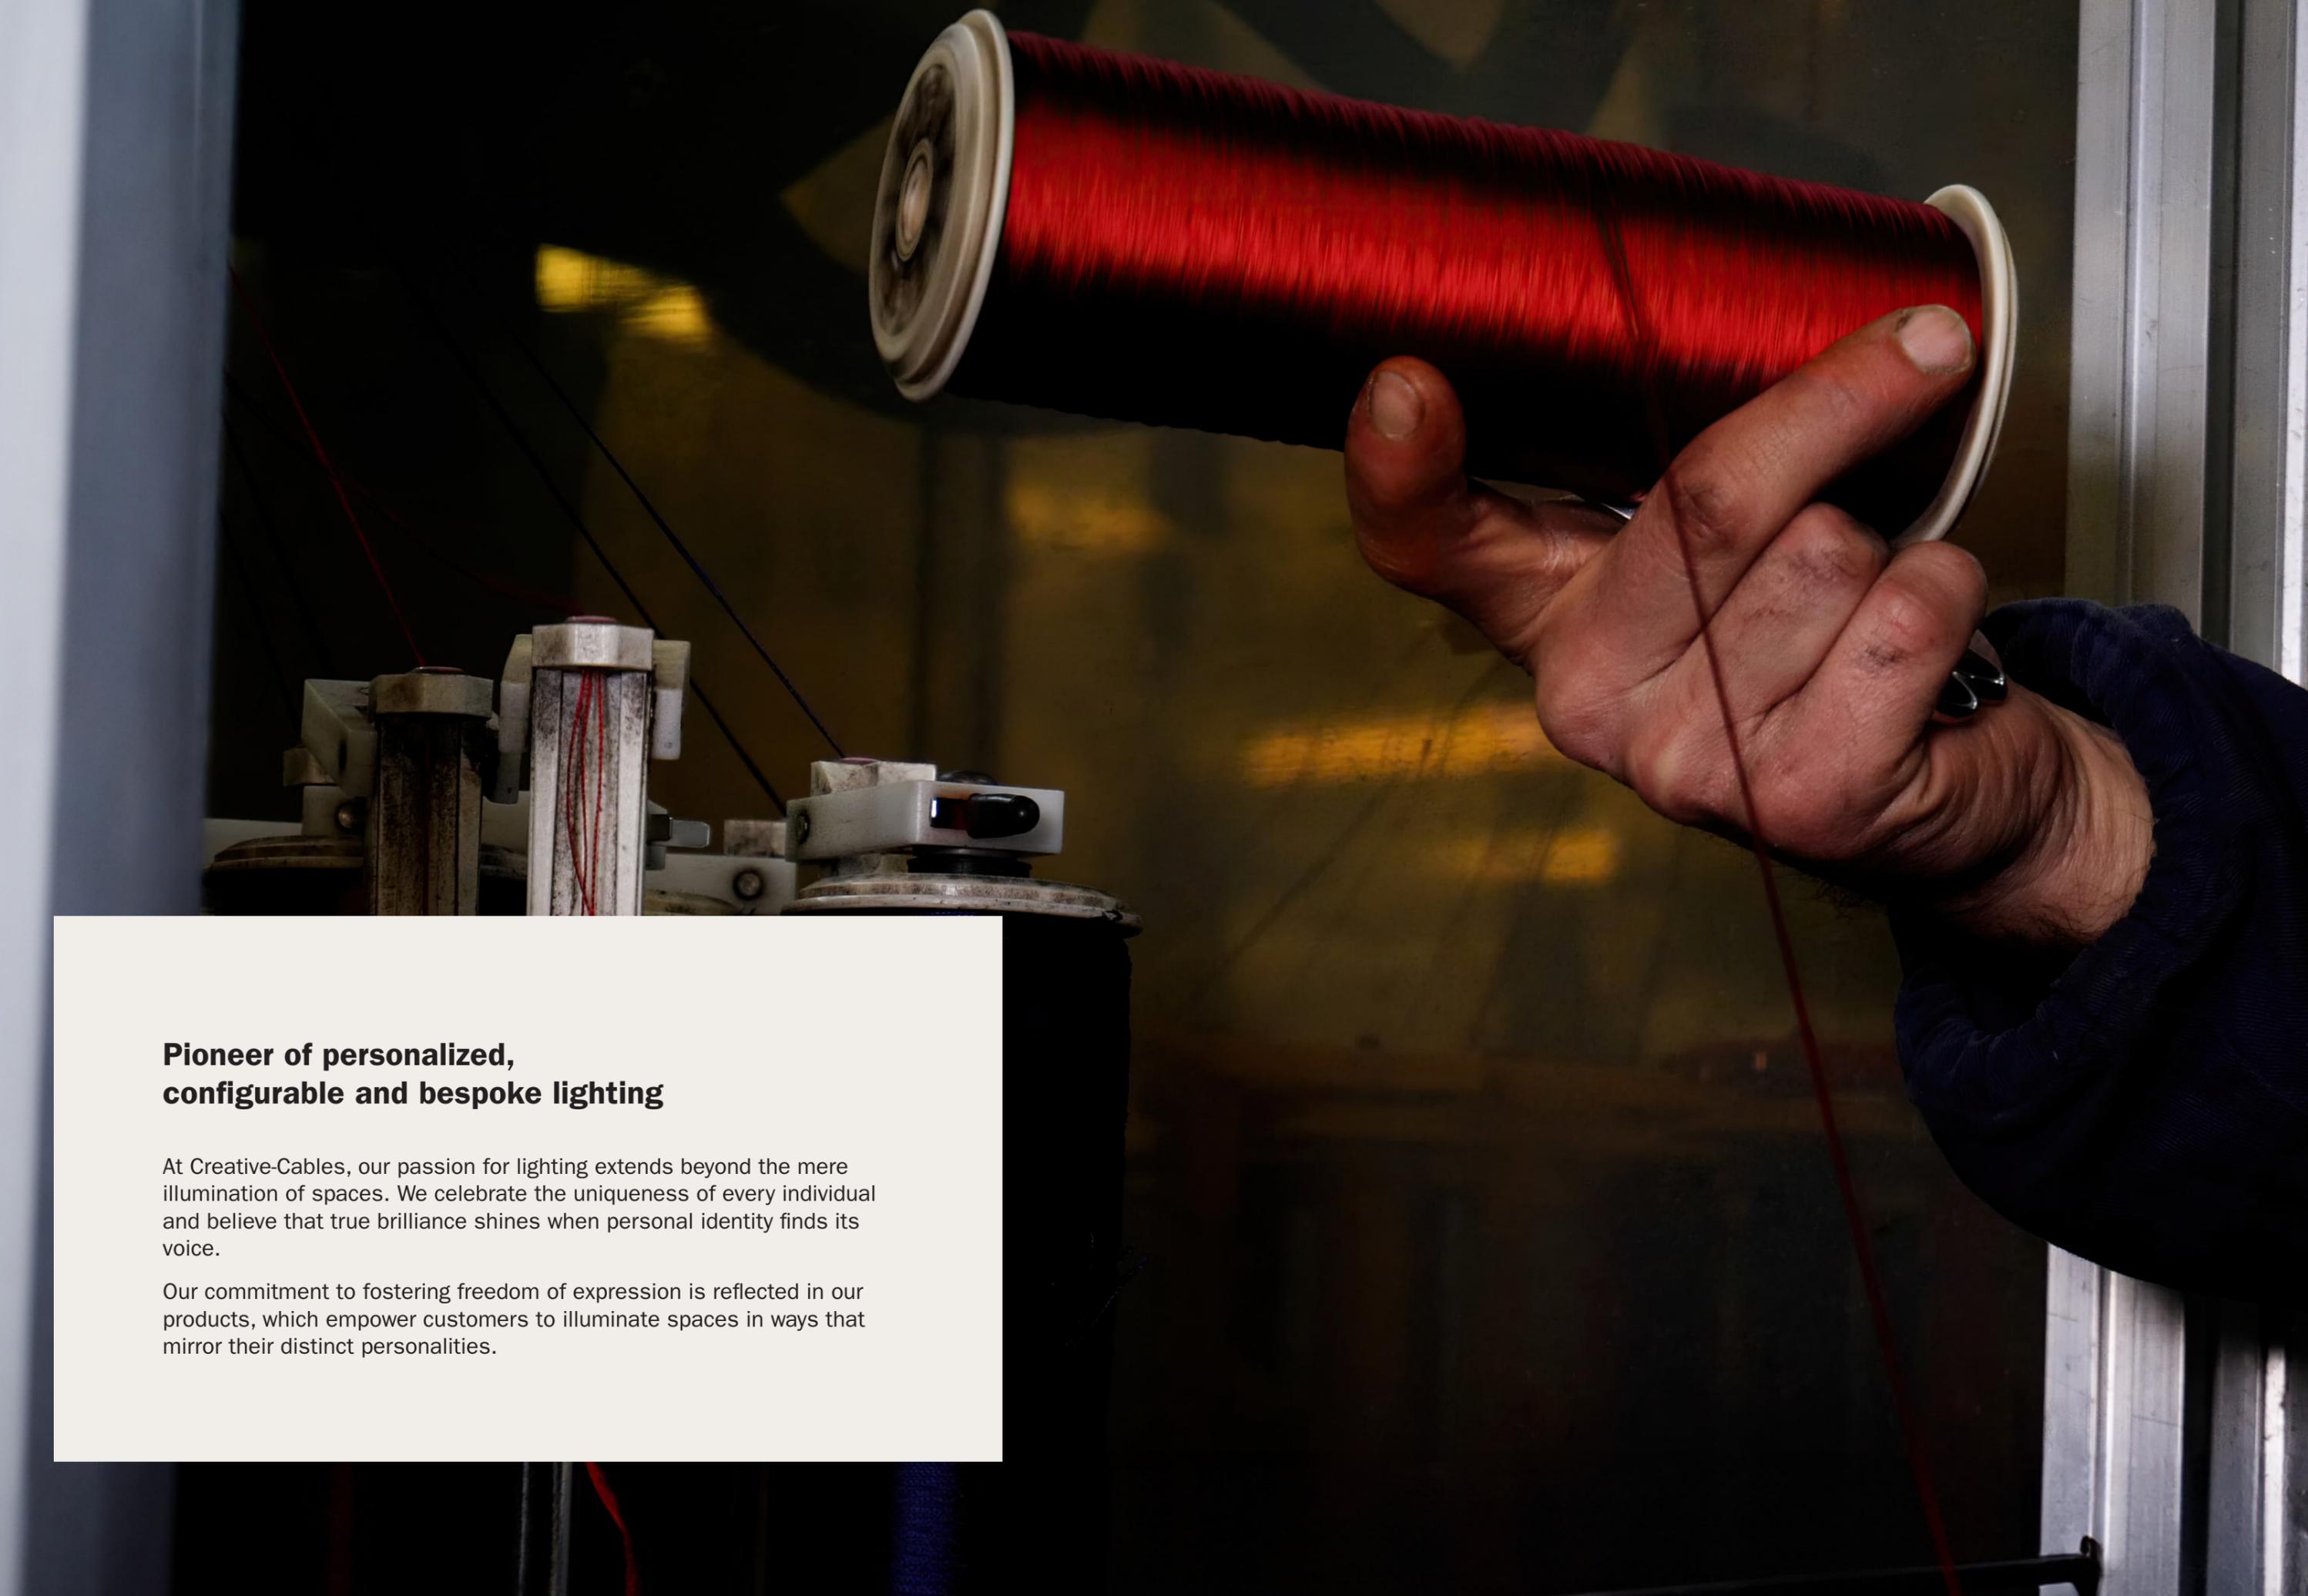

Pioneer of personalized, configurable and bespoke lighting

At Creative-Cables, our passion for lighting extends beyond the mere illumination of spaces. We celebrate the uniqueness of every individual and believe that true brilliance shines when personal identity finds its voice.

Our commitment to fostering freedom of expression is reflected in our products, which empower customers to illuminate spaces in ways that mirror their distinct personalities.

LIGHTING CABLES

More than 300 colours, patterns, textures and surface effects for different uses, tastes or designs. Choose among the offered styles (round, twisted, nautical, large section or flat) to select what best suits your lighting project: they are incredibly flexible, because we use high quality PVC to avoid bulges or wrinkles.
All of our lighting cables are IMQ-HAR certified, the highest quality standard in Europe.

Round glossy-effect cables

Glossy cables have a bright solid finish, which is elegant yet informal. Shiny as silk, they can bring colour wherever needed.

Specifications:

H03VV-F 300/300VAC 2x0,75mm² or 3x0,75mm²
Flex Round IMQ-HAR Cable DOUBLE INSULATION under textile braid.

The cable is sold by the meter, multiple orders will be delivered in one piece up to a maximum of 50 meters in length.
UL listed 3 core AWG18 cable is also available

LARGE SECTION CABLES

Our large section (3x1,50mm²) cables will help you when you require some extra power: multi sockets, power leads, wall installations, extension cables. Choose among the offered styles (round, twisted) for what best serves your purpose: they are incredibly flexible, because we use high quality PVC to avoid bulges or wrinkles.
All of our large section cables are IMQ-HAR certified, the highest quality standard in Europe.
Every single product is designed and Made in Italy.

Large round glossy-effect cables

Glossy-effect cables feature a sleek solid finish that is both elegant and casual. They can add color wherever it's desired.

Specifications:

H05VV-F 300/500VAC 3x1,50mm²
Flex Round IMQ-HAR Cable DOUBLE INSULATION under textile braid.

The cable is sold by the meter, multiple orders will be delivered in one piece up to a maximum of 50 meters in length.

ROPE CABLES

Covered with soft flock and raw jute in order to increase their diameters, cables can become a nautical rope with various thicknesses, colours and finishes. Inspired by the maritime style, they can create a totally unexpected suspension lamp. Every single product is designed and Made in Italy.

Rope cables

The electrical cable becomes an electrical cord.

The double covered electrical cables are covered with soft flocked and raw jute, resulting in a very large diameter.

Specifications:

300/300VAC 3x0,75mm²
Visible Spiral Flexible Cable which is double insulated, under the fabric braid.

The cable is sold by the meter, multiple orders will be delivered in one piece up to a maximum of 20 meters in length.

EXTRA LOW VOLTAGE CABLES

The two-pin Extra Low Voltage electrical cable in white extra-flexible silicone is covered in glossy effect fabric. The cable is ideal for movable luminaires (table / floor lamps) in class III and for fixed installations (wall, ceiling and pendant lamps) in class II with a rated current of not more than 2A.

The size and structure of the cable make it suitable for LED applications with a voltage of less than 48V.

The cable is 3.5 mm in diameter (approximately 4 mm covered) and has 2 copper conductors covered in black and red silicone rubber with a cross-section of 0.35 mm².

Caution: do not use for mains voltage and halogen bulbs.

Specifications:

Flexible bipolar cable insulated with white silicone
2 copper conductors coated with black and red rubber section 0.35mm
Rated voltage 300/500 V
Test voltage 2kV
IEC EN 60228 Class 5
IEC EN 60754-1/2
The size and structure of the cable make it suitable for LED applications

UV RESISTANT

What does UV resistant cable mean?

It means the fabric used to line these cables was designed to resist UV rays, which make up around 10% of sunlight. The colour of UV resistant cables remains vibrant and doesn't tend to fade over time, even when they are consistently exposed to sunlight.

FLAT CABLES

Flat cables are Creative-Cables solution allowing you to both create wonderful string-light for your garden parties and beautiful indoor designs through the Filé and Lumet Systems. Choose from a selection of colors and add the necessary accessories for your compositions.

Specifications:

H05RNH2-F 300/500 VAC Rectangular flat shaped 2x1,5mm² cable
No flame propagation: in accordance with EN 60332-1-2/IEC 60332-1
Referring Regulations: EN 50525-2-82 and IEC 60245

The cable is sold by the meter, multiple orders will be delivered

LAMP HOLDERS

———

A lamp holder is an essential accessory for any design lamp.

We offer a wide range of shapes, sizes and materials that will easily match any living or working environment.

Lamp Holders can match or contrast the ceiling roses: it's up to you!

All our lamp holders are IMQ-ENEC certified, the highest quality standard in Europe.

METAL LAMP HOLDERS

Discover our wide selection of metal lamp holders. Choose from vintage or modern styles, classic or unique designs, and E14 or E27 fittings. Elevate your lighting with our stylish and durable lamp holders, allowing you to create the perfect ambiance for any space.

BAKELITE LAMP HOLDERS

A bakelite lamp holder is perfect for assembling a classic wall, table, or ceiling lamp. Bakelite, named after its inventor, is a thermosetting resin that evokes memories of telephones, radios, and other objects from the 1950s and 1960s. It is a lightweight and durable material, and when painted, it acquires a glossy finish.

SPOTLIGHTS

———

Spotlight lamps are the perfect focal point to illuminate your spaces with elegance and precision. Designed to provide direct and focused light, these lamps add style and functionality to any environment.

Thanks to their flexibility and adjustability, spotlights allow you to easily control the direction of the light beam, creating cozy atmospheres or targeted light points.

Choose from different designs and materials to customize your space with quality lighting and distinctive style.

TUB-E14

The Tub-E14 is the ideal lamp shade for anyone who enjoys using a spotlight. It provides a directed beam of light that creates an ambiance and is designed to fit an E14 double ring lamp holder. Tub-E14 is a multi-purpose lighting solution that works well as a shade for a single or multiple pendant lamps or wall lights.

GU1D0

GU1d0 is a mini spotlight for directional LED lighting that allows you to illuminate your bedside table when reading, your child's homework, or any other spot where you need a direct and focused beam of light, producing approximately 260 lumens in a directional beam of about 36 degrees.

Mini Spotlight LED GU1d0

Cover Material: **Metal**
Rated Voltage/Current: **250V/2A**
Fitting: **Mini GU10 (MR11)**

CE
UK CA

Petrol	KBMGU10PE	Brushed Copper	KBMGU10RAS
Soft blue	KBMGU10SB	Brushed Titanium	KBMGU10TIS
Soft green	KBMGU10VE		

MINI GU10 INCLUDED

GU1d0 lamp holder is fitted with a MINI GU10 (or MR11) bulb, smaller than the normal GU10 bulb because of its 35 mm diameter and 46 mm height (socket included) that you can replace very easily by removing the silicone ring and rotating the bulb.

MINI GU10 LED LIGHT BULB

Fitting: **Mini GU10 (MR11)**
Rated Voltage/Current: **110-240V**

CEILING ROSES

—

A ceiling rose serves as an elegant and functional element that not only complements your lighting fixture but also conceals wiring and adds a touch of sophistication to your ceiling.

Our collection includes a wide range of shapes, sizes, and materials, ensuring a seamless match with your home's unique style.

SPØSTALUCE

METAL CEILING ROSES

Among our best selling products, metal ceiling roses are available in 6 finishes. We also created the 2-3-4-5-6-7 hole versions to create multiple pendants: the side-holes roses can help design a totally customized wall or ceiling light fitting array. Cable clamps can be made from plastic or metal and have different lengths, for an even more personalised solutions.

WOODEN CEILING ROSES

We produce our wooden components in a small workshop in the province of Turin, our hometown. Here, the distinctive Italian craftsmanship, care and creativity of our designers transforms every wood log into beautiful components.

We first designed them for our rope cables and offered in three basic colours, but they are so extremely versatile that we've created more options to give you more possibilities to style your interior as you prefer: natural wood can be painted or polished as desired. Each ceiling rose has a matching wooden lamp holder.

ROSE-ONE

The first versatile and easily customizable ceiling rose. Create unique multi-pendant lamps with ROSE-ONE ceiling roses.

Rose-One System is a Creative-Cables exclusive solution allowing everyone to create wonderful multi-pendant lamps personalized on each one's needs.

Invest with limited stock
Keep your stock limited without reducing the number of products you can sell. You can easily create your product combining the Rose-One bases with covers either already drilled or to be drilled.

Flexible and customizable solution
With Rose-One you will have the possibility to customize the product independently, defining the number and position of the pendant holes selected by your customer.

Wide choice of shapes, colors and finishes
You can choose from many combinations, which differ in shape, size, color or finish. If the available options are not enough you can request a custom finish!

Concealed cable clamps

All purpose metal ceiling rose avaiable black or white

Rose-One decorated Cover
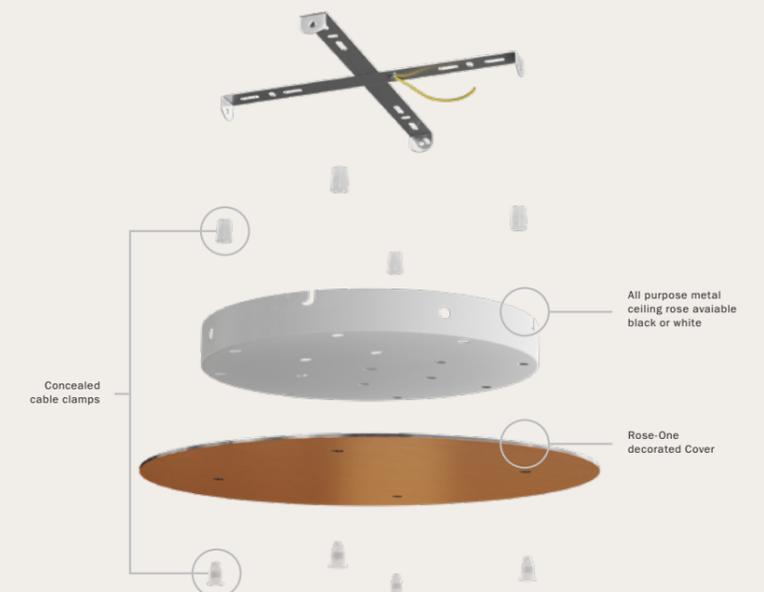

Patented Solution
MADE IN ITALY

Compatible with
SPOSTALUCE

Round, square or rectangular

With the Rose-One system, you can choose from a variety of shapes and sizes to find the rose that's right for you.
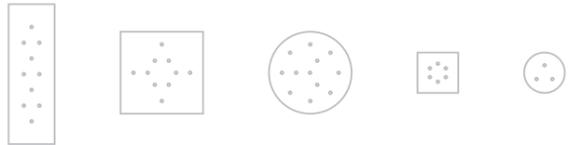

Colors and finishes: Matt, Textured or Metallic?

Your Rose-One can be understated and elegant or informal and playful; take a look at our colorful decorations!

MATTE WHITE	MATTE BLACK	MUSTARD YELLOW	SUGAR BLUE	PETROL
SOFT GREEN	ANTRACITE	BRUSHED BRONZE	BRUSHED COPPER	BRUSHED TITANIUM
MIRROR	CONCRETE	WOOD		
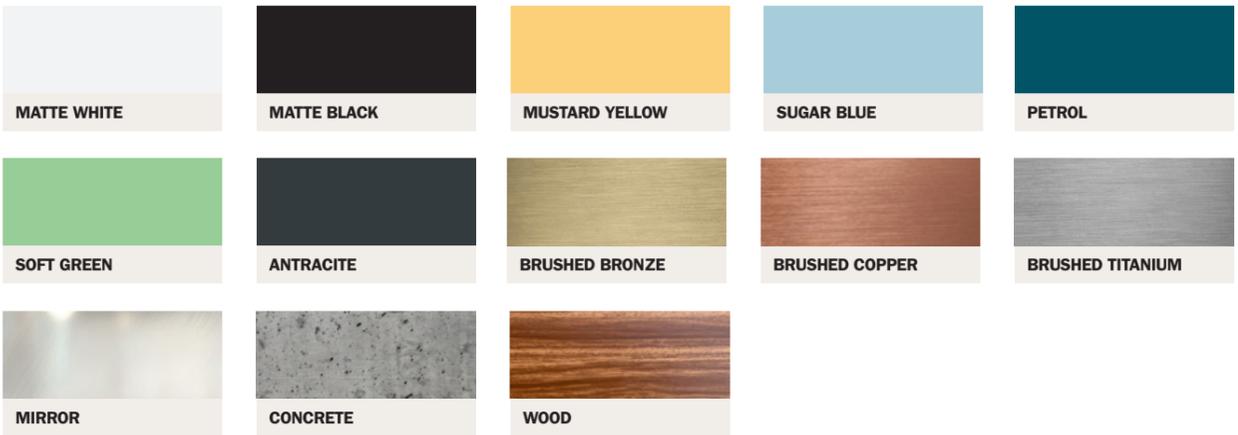

Numbers of pendants: how many?

Our catalogue has a range of Rose-One options from 1 up to 15 holes to choose from, to make an installation with many pendants! In addition, custom roses can be made with the number and geometry of holes that your customer prefers.
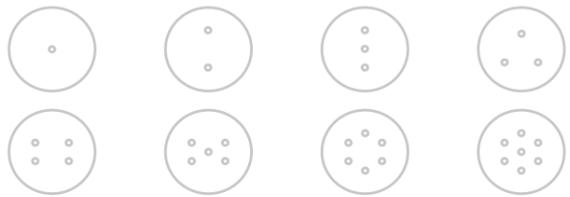

Base holes: We have 4 options

The Rose-One by Creative Cables is a Made in Italy patented solution that is characterized by a base with four entry/exit holes. How can you use them?

· Create up to 4 side drops in addition to those present in the cover of the Rose-One.
· Connect multiple Rose-Ones together to illuminate areas of the room away from possible points of power sources.
· If there is no ceiling light you can use the side holes to connect the Rose-One to a nearby electrical outlet.

If the 4 holes of the base are not used, they can be closed with the caps provided in the package.

Multiple arrangements

The Rose-One rectangular or square, thanks to the many finishes available allows you to create multiple impressive suspensions in relation with the style of the rooms you are furnishing.
The side holes allow you to easily connect several Rose-One to each other, starting from a single ceiling light point. They can be easily combined with each other to allow you to create different arrangements and geometric designs adaptable to your needs: lighting a living room, a table or a long bar counter.
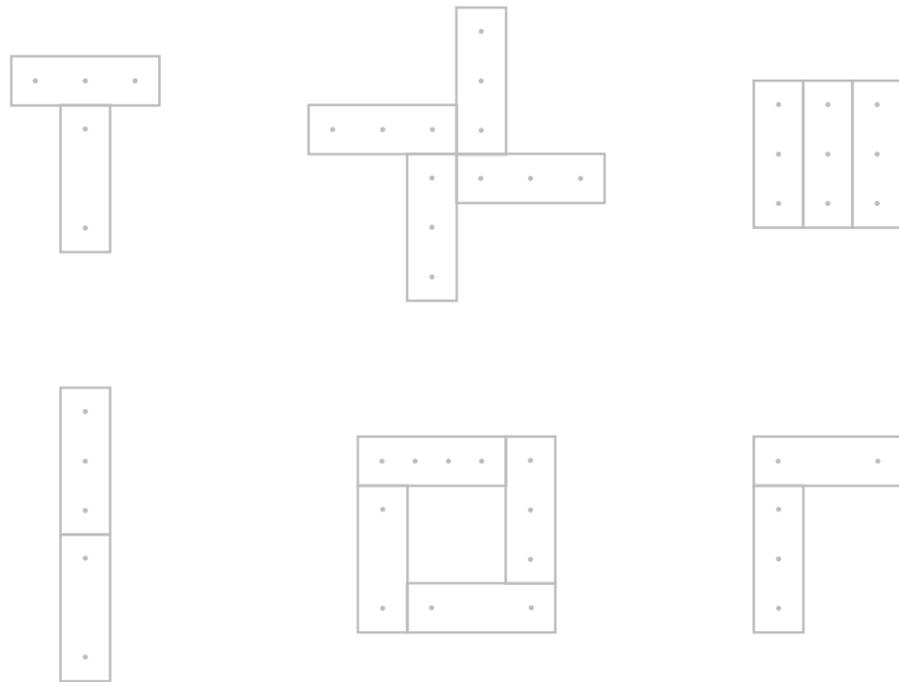

Rose-One: the customizable ceiling rose

With our template you can drill any round or square Rose-One cover in your shop with a common drill.
The holes are numbered to make drilling easier: if you want, you can use our legend to reproduce the most classic drilling patterns (included in every pack).
Unlike a classic range of rosettes, it will not be necessary to stock an infinite number of models, different in the number of holes and finishes: depending on customers requirements, you can create the desired product by combining the universal base to the dibond, already drilled or to be drilled with the appropriate template jig.
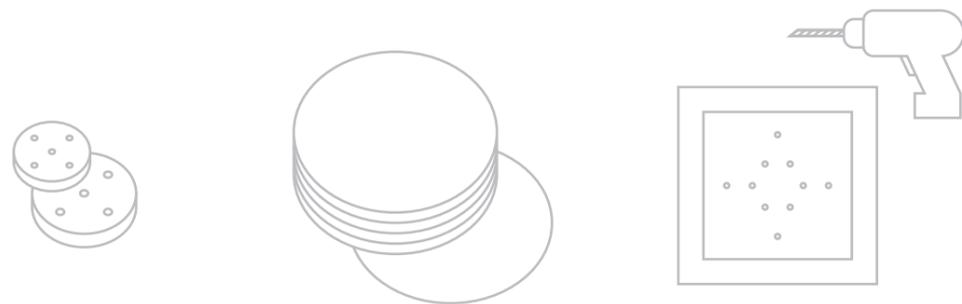

Rose-One kits

For all our customers who like to create and design, being able to choose your ceiling rose for single or multi pendant lights just got a whole lot easier. Rose-One system comes in a wide variety of colors and design options.
Look out for more options to come.

What you need to compose your Rose-One ceiling rose

You'll be able to build your Rose-One ceiling rose in 3 simple steps. One - choose pre-drilled or undrilled cover's shape, size and Decorazione. Two - choose one of the 3 metal ceiling roses: Rotondo small for smaller covers, Rotondo big for the bigger ones and rectangular for rectangular covers. All available in white or black.
Three - complete your ceiling rose with transparent hidden cable clamps. Easy not?
And you can also optimize your warehouse's stock! How? Depending on your customers' requirements, you can easily create your product combining the Rose-One bases with covers either already drilled or to be drilled.
A lot of choices for your Clients with a minimum stock, what do you need more?

Cover

Choose the shape, the size and the decoration. You can either buy it: predrilled or undrilled.
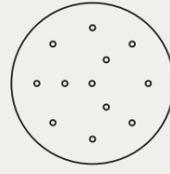

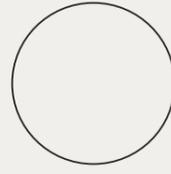

PREDRILLED   UNDRILLED

Base metal ceiling rose

Depending on the cover you chose, you will need to choose the correct one from the 3 available metal ceiling roses: round small for smaller covers, round big for bigger covers or rectangular (either white or black) for rectangular covers.
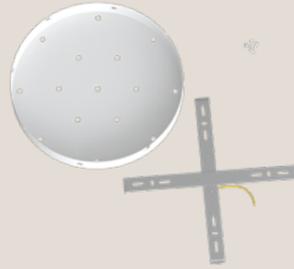

Cable clamps

Add the transparent hidden cable clamps to your cart in order to complete your ceiling rose.

Warning!

If you buy undrilled covers you will also need to buy a template inorder to ensure that you drill the holes correctly.
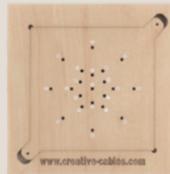

1. Pre-Drilled Covers

The Rose-One pre-drilled come in three different shapes: square, round and rectangular. And the squared and round versions are available in two different dimensions, 200 and 400mm. Covers are pre-drilled with 1 to 15 holes depending on their dimension following different kind of punching schemes. Covers come in different designs and colors and are made in aluminum or dibond. Complete the Rose-One ceiling rose with specific Material: a metal ceiling rose and cable clamps.

UFO UNCONVENTIONAL FLYING OBJECT

We selected 7 famous & promising emerging artists, we chose two of their most representative artworks and we lit them up: yhis is how the UFO collection - Unconventional Flying Objects was born. 7 double-faced wooden disks, processed and printed in Italy, ready to become a wall or a suspension lamp. Well, actually two: both sides of the disk are illustrated with different designs!
Men and women, cactus and pineapples, mandala and azulejos, ice cream and cupcakes, and not to forget fish, dogs and flamingoes: A surprising varuety of subjects and colours that create playful, romantic or surreal atmospheres.

CEMENT SHADES

Cement lampshades are not just a simple cover for the lamp holder like many others, but rather genuine decorative elements capable of imparting a distinct character to the environment in which they are placed. The inherent qualities of the material and the manufacturing process result in each lampshade having a slightly irregular surface, making it unique in its own right.

CABLÒ

Here at Creative-Cables we always strive for the best, both for our customers and our planet. Cablò is a perfect representation of that: a support made from recycled plastic that adapts to any suspension and lamp holder, turning a simple accessory into a floating piece of art.

Cablò
Design by Fabrizio Alessio

CABLOREC

Diameter: **10 cm**

CABLONER

Diameter: **10 cm**
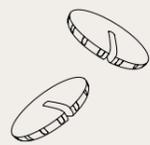

1.

Choose your Cablò and the cables you like.
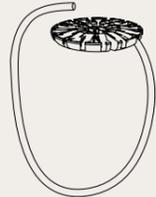

2.

Open and insert the cables in the slots.
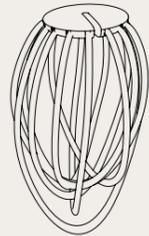

3.

When satisfied with your design, close the Cablò.
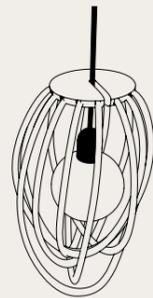

4.

Mount it on any suspension with the built-in clamp.

Suitable for E26 socket

CUSTOMIZE IT

Any original Creative-Cables 2x and 3x fabric cable that is at least 50cm long can become a Cablò component. Pick out your kit, available in the black or multicolour version, and use it to create your fully customisable lamp. What's more, by using different combinations you will achieve many different shapes and weaves.
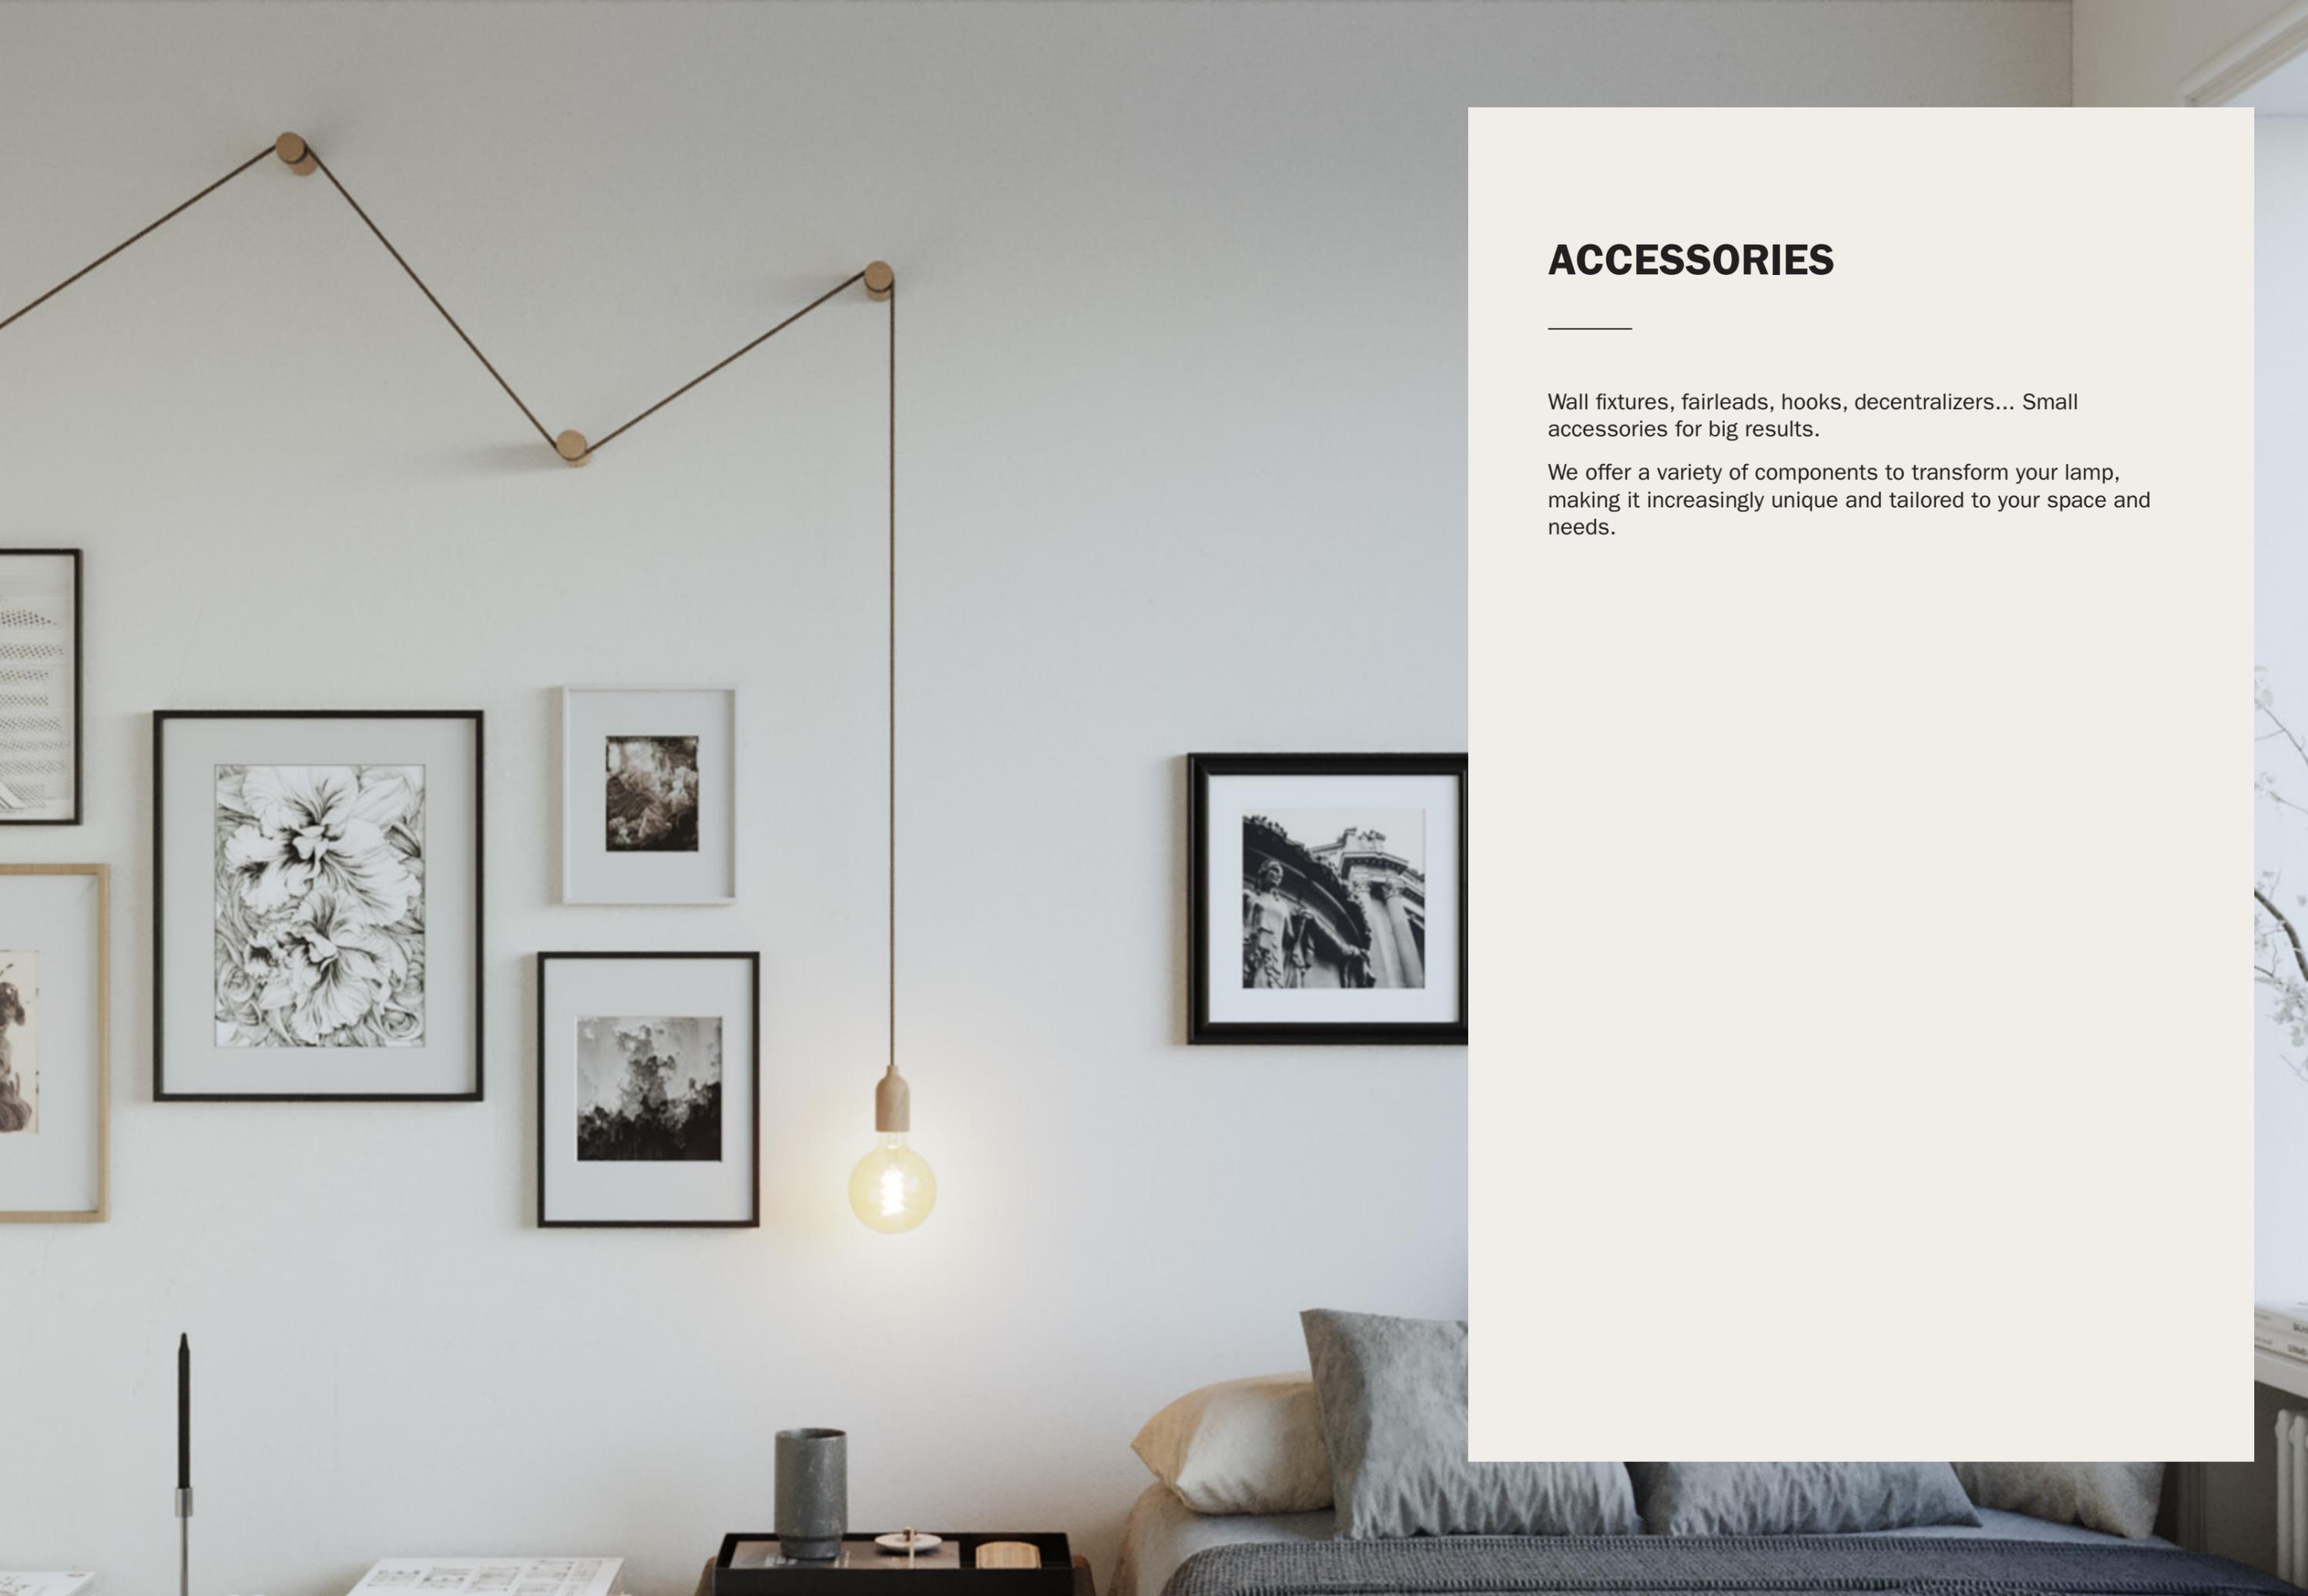

ACCESSORIES

———

Wall fixtures, fairleads, hooks, decentralizers... Small accessories for big results.

We offer a variety of components to transform your lamp, making it increasingly unique and tailored to your space and needs.

PINOCCHIO

Pinocchio is Creative-Cables adjustable wall mount for pendant lamp: it is made in Italy out of 100% beachtree wood and it can be polished or painted as desired.

The cable doesn't go through any holes, it is wrapped around ridged wooden supports at each end: we strongly recommend you to use it with our lamps Snake, Snake for lampshades and SnakeBis.
Pinocchio makes it possible to hang a lamp onto a wall, even with a lampshade with a 50cm maximum diameter and a 3,365 kg maximum weight.

Pinocchio

Material: **Beechwoodt**
Max. supportable weight for 3x0,75: **3,4 kg**
Max. supportable weight for 2x0,75: **2,3 kg**

Black	SSTLN03
Neutral	SSTLN01

Pinocchio can also be adjusted at three different heights.
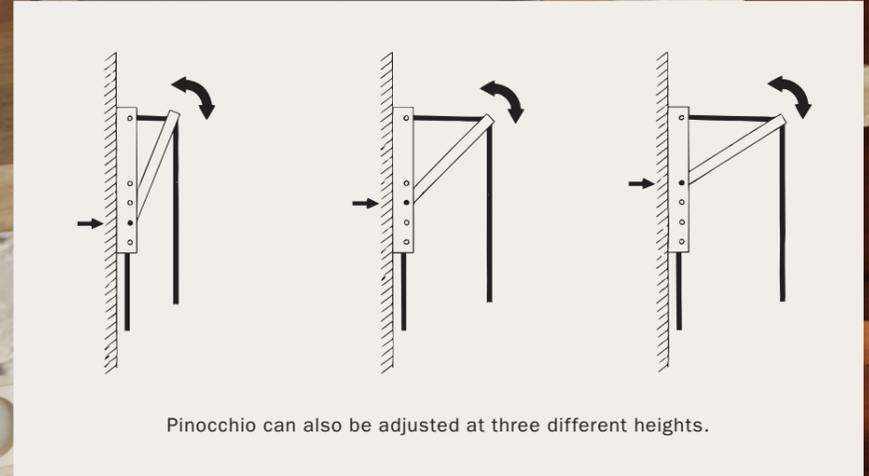

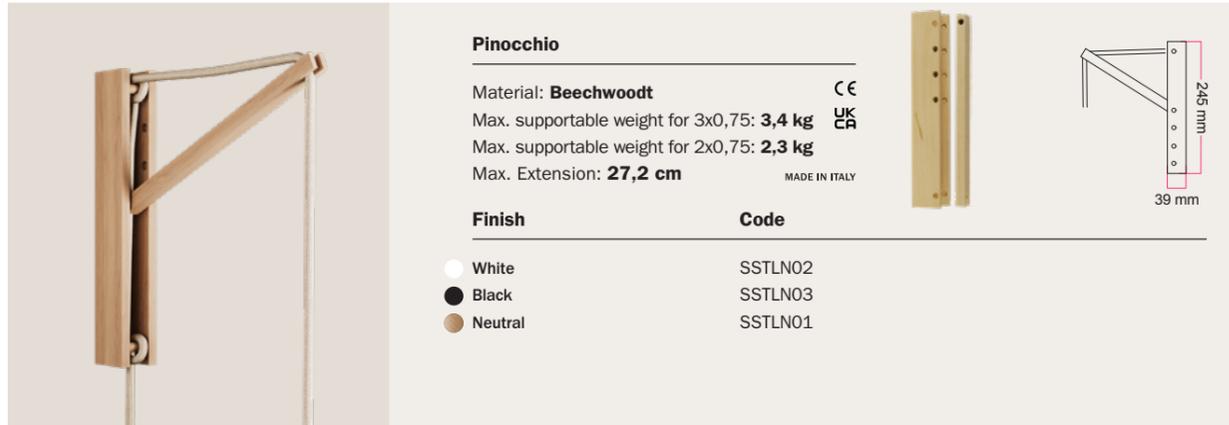

PINOCCHIO XL

Pinocchio XL is not a simple wall bracket! It is Creative-Cables' solution to hang your lamp where you need it, allowing you to adjust the distance and the position of the light source from the wall. Thanks to the groove in the last rod, the cable remains locked in a safe position.
Made (in Italy) from untreated beechwood, it can be impregnated or painted with the colour you want. And if you wish to add a lampshade, you can complete your installation with the ceiling brackets included in the kit.

ZIGH-ZAGH

Zigh-Zagh is the ceiling support that allows you to create original pendant lamps, adapting both the shape and the length to every situation. Made in Italy, it can also be impregnated or painted with whichever colour you like. Included in the kit is a thin transparent thread and the ceiling hooks needed to hang up your creation.

ROLÈ

The Rolè wooden cable tie is an ideal wall fixture for creating beautiful wall lighting solutions in your indoors spaces. It can be used to decentralise the fall of pendant lamp, or thanks to the use of many cable ties in a installations...
and why not, you can use Rolè as a coat rack! Rolè is made of 100% Italian-made wood and is avaible in four finishes: beechwood, wenge-effect, black and white.

ARCHET(TO)

Archet(TO) is Creative-Cables patented and Made in Italy solution to create a suspended lamp that can be hung onto a wall, even with a lampshade with a 70 cm maximum diameter and a 3,365 kg maximum weight it is bearing. It has a light structure in trasparent polycarbonate and can be used with our lamps Snake and SnakeBis.

TACHÉ, LIGHT BULB SUPPORT

Taché, in Piedmontese means "to attach" or "to fix": our Taché is a support for light bulbs that allows you to transform a Globe 125 into an original table lamp. Designer Fabrizio Alessio has imagined to adapt William Middlebrook's idea (the paper clip) to the world of lighting, by drawing from its elegance and simplicity: just as the paper clip staples sheets of paper, Taché's super-light structure can staple the globe of any G125 bulb, leaving it suspended and in view. The Taché consists of two mirrored arms with an aluminium wire frame covered with a braid made from the fabric of our cables and two elegant Made in Italy wooden feet. As well as a decorative function, the covering sleeve protects the bulb's surface.

WOODEN FEET KIT - TABLE LAMP SUPPORT

These beechwood feet made in Italy have a supporting purpose, allowing you to transform a lampshade into a table lamp base. They are equipped with double-sided adhesive tape to secure the lampshade and felt pads on the underside to ensure protection and adherence to the supporting surface.
The wooden feet are available in different finishes to allow for a pleasant harmonious effect of your installation.

CREATIVE FLEX

——

When flexibility takes shape

Creative Flex is the lighting system for creating single and multiple pendant lamps in all the shapes and finishes your imagination can suggest. It is bendable and adjustable with different torsions, available in 3 lengths to give shape to any lighting requirement and, obviously, customisable with 20 coatings and 5 finishes for the terminal. The ultimate in flexibility, don't you think?

Patented Solution
MADE IN ITALY

CREATIVE FLEX

When flexibility takes shape.

Creative Flex is our completely flexible illumination system because you can model, bend, twist and regulate as you wish with many a torsion. Flex System is ideal to create single and multi-fall pendant, wall lamps or table lamps inspired by the most imaginative ideas, yours!
Be creative and design your own lighting system.

Fabric covering and terminals

We offer a selection of 20 colors for your fabric coverings, that seamlessly blend into any environment. Our terminals offer a seamless blend with your chosen fabric covering. Find the perfect match among our five finishes to achieve a harmonious fusion of style and functionality.

CAGE

———

Looking for a modular chandelier in true Creative-Cables style? Cage is the answer to your every need thanks to its clean shape that encloses the cables to create dazzling and unique suspension lamps. We like to think of them as floating sculptures.

They are available round or squared, in 3 different finishes: black or white in recycled plastic and transparent in polycarbonate.

Change shape

If you get tired of your current display, switch up your lamp's appearance each and every time you want to by simply adding new Cages to your current one or by adjusting its placement. For unique and captivating shapes.

ELECTRICAL COMPONENTS

Every electrical accessory you can think of to create your own personal design: plugs, sockets, switches, dimmers, and much more.

All certified to the strictest Italian and European safety standards.

SWITCHES DESIGNED BY ACHILLE CASTIGLIONI

The legendary 450, was born more than 50 years ago from the pencil of one of the protagonists of Italian design, winner of nine Golden Compasses.

The sound of the operating 'click' has entered the collective imagination of every person since, as this small object has been produced more than 25 million times. But 450 isn't the only switch designed by Achille and Pier Giacomo Castiglioni: there are two "big brothers" designed for floor and table lamps: the 661 and the 662.

B2B SERVICES

Choice

We offer hundreds of IMQ-HAR or UL certified cables made in Italy, complemented by a variety of lighting accessories and high-quality light bulbs that can generate thousands of combinations. Our assortment is regularly reviewed to set or match current lighting trends.

Assembly

We can assemble and certify almost any of our products together to create your desired ready-to-use lamps that only need to be positioned and switched on. Simply nominate the components you need and contact us to receive the best quotes available complete with volume breaks for larger quantities. The more you buy, the more you save.

Customization

Anything can be possible at Creative-Cables. We like to explore your ideas and encourage your creativity: if what you want is feasible, we can make it happen. We are the producer, so ask us if we can create what you need.

We are available to provide you with cables in different colors than those offered, to cover special cables, or to send you pre-processed cables (cut, stripped, etc.). We can also customize lamp bases and lampshades for you using processes like engraving or laser etching, with a minimum order requirement. If you have special requests, just ask us, and we'll see how we can assist you.

Service

Our B2B website is active 24/7: In addition, each B2B customer receives dedicated support from a qualified account manager who can assist you throughout the process before, during and after the sale.

Logistics

B2B orders of any size can be prepared within 5 working days, 80% of our orders are dispatched within 48 hours. We have mastered our efficiency to allow you to receive what you need when you need it. For special customized products or assemblies, we can advise approximate lead times to ensure you have all the information you need to plan accordingly.

Point of sale materials

We have boxed products and sample displays cases. Corners Display Panels are the solution to display a wide selection of products in your store or showroom to maximize sales by properly expressing the idea of possibilities of light installations that can be obtained with Creatives Cables components.

CONFIGURATOR CORNER

The inspiration

Our architects will design an installation in your shop, with a few selected products to intrigue, help and inspire your customers.

Play

A dedicated version of the Creative-Cables Configurator for customers to use on wall-mounted touch screens, computers, tablets or smartphones, accompanied by a salesperson or on their own. Customers create their custom-made lamp, while playing.

Touch

A material library (optional) organised in drawers for people to touch, check colour combinations and confirm choices.

The Configurator Corner makes selling custom products a simple and automated process: no IT integration, no catalogues to learn or consult, no codes and prices to remember. Hundreds of thousands of possible configurations with no need to stock the product. The selection of configurable models can be customised to match the offer of the point of saleand the customer retail price level is also fully configurable.

WHO IS IT DEDICATED TO?

Configurator Corner has been thought for a selected number of Point of sale.

• Lighting shops
• Furniture shops
• Concept Stores
• Home accessory shops
• Garden centres and outdoor furniture
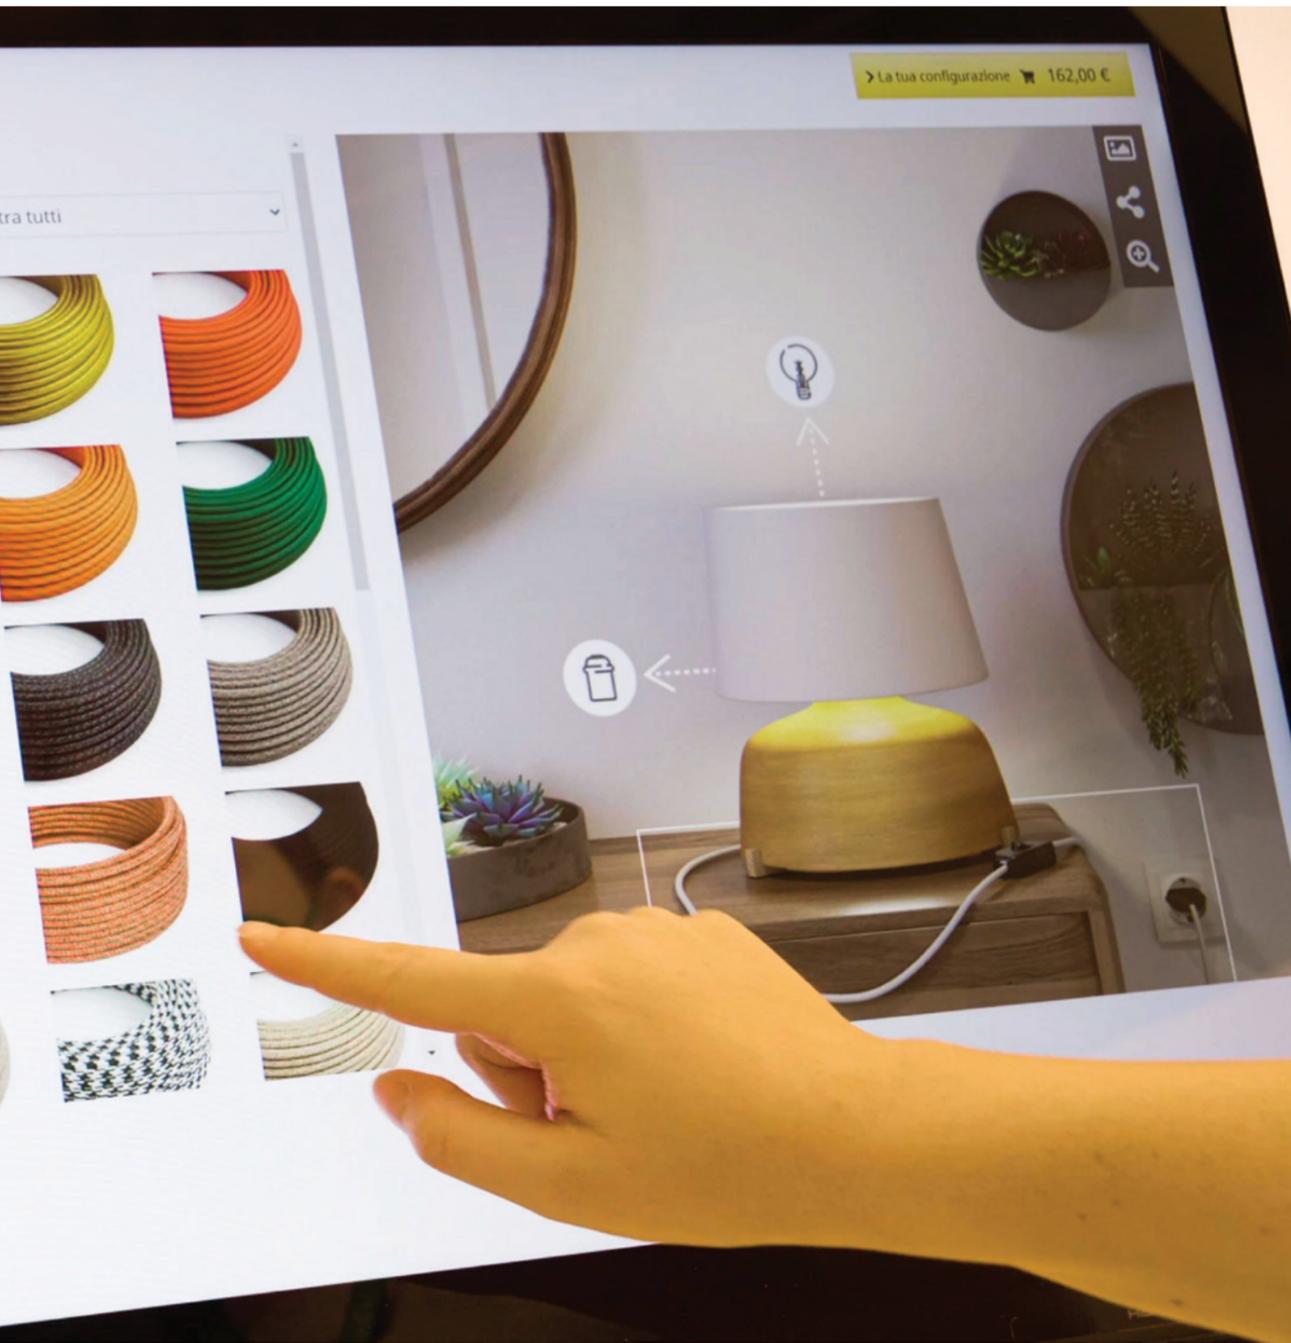

HOW MUCH SPACE IS REQUIRED?

• From 0,5 to 10 square metres
• At least one free wall

HOW MUCH SPACE IS REQUIRED?

Little, very little and in any case, it varies according to the individual project depending on the amount of material to be displayed, which device will be used for the configurator and the use of the material library.

• The installation and use of the configurator is completely free of charge.
• The design of the space is handled by Creative-Cables.

WHAT DO WE OFFER?

• Free of charge and customised design of the display according to the needs and type of space.
• Touch screen configurator: the customer composes the lamp of their desire and receive it in the shop, with no stock commitment for the point of sale.
• Material library: a set of customised drawer units (optional) for the customer to "touch" the materials used in the configurator.
• An automatic order system to make the procurement process quick and easy.
• Extra discounts on the displayed products.
• Location on **www.creative-cables.com** as an official Corner where you can find Creative-Cables products.

DISPLAY CASES

The white porcelain diverter with knob is a vintage component used to control a single light from multiple locations. Made from high quality materials and perfected with an elegant finish, this diverter is ideal for those looking to achieve a vintage atmosphere in their home or office space.

EIVA Mini Creative Box - Counter display unit

Code: **MCB-EIVA2**
Dimensions: **l 410mm, h 505mm, w 305mm**

A tool that will make it easier for the customer to choose and for the retailer to sell. Despite its small size, the display unit contains all the components of EIVA outdoor lighting system: the two Pastel or Elegant lines, the 8 silicone finishes available, the selection of Creative Cables cables for outdoor use and the innovative and patented   lamp holder. The display unit is shipped pre-assembled, thereby avoiding the hassle of having to follow any assembly instructions. Just open the box to display it and start selling! Contact your local B2B sales team to find out how to get an EIVA Mini Creative Box with your next order.

Reel Display Kit

Code: **ESP8REEL**
Dimensions: **l 62cm, h 23cm, w 11cm**

The Reel Display Kit is a simple and elegant solution for displaying Creative-Cables cables on a wall.
Each kit consists of 2 lateral leg loops with logo and 2 bars, to easily exhibit up to 8 reels of cable.
The cable reels are not included, but are supplied by default with the purchase of 50 meters of lighting cable and 25 meters of cable for string lighting cables (or relative multiples).
